DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2, 4-8, 11-16 and 20-32 are rejected under 35 U.S.C. 102(b) as being anticipated Zintz et al., U.S. 4,185,652.

Regarding claims 2, 4-8, 11-15 and 20-31, Zintz et al discloses in figure 4 well tool devices (161-165 and 169) controllable by a unique pressure (col. 7), control lines (151,152,183,212), a decoder having main valves (201-205) responsive to a control line (151) and a control line (152) in hydraulic communication with the tool, all of the decoders each having an accumulator (213), a filling valve (214) and accumulator valve (216), range bias springs (197), a crossover (211) between decoders.

Claims 37, 39 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Purkis, 6,567,013.

Regarding claims 37, 39 and 40, Purkis discloses in figure 4 decoders (158-170), first line (C) second line (D) crossovers (A and B) serving to change the lines from pilot to command.

Art Unit: 3672

Allowable Subject Matter

Claims 3, 9, 16-19, 32 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth Thompson whose telephone number is 571 272-7037. The examiner can normally be reached on 7:00 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David J. Bagnell can be reached on 571-272-6999. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
